**NICOLA CAFFERY**, Associate at Rayden Solicitors

[linkedin.com/in/nicolacaffery](https://www.linkedin.com/in/nicolacaffery)

As specialist family lawyers we hear numerous different scenarios when our clients come to us for advice and help with their separation or divorce – or other aspects of life as a couple or family that fall under the umbrella of family law, whether that be pre-nuptial or post-nuptial agreements, co-habitation rights, who owns what assets, parental responsibility etc. Unfortunately for some, there are some myths surrounding family law that have become ingrained in people's perception of what is fact, whereas the reality can be a pleasant, or sometimes unpleasant, surprise. During our webinar we are going to debunk some of the most commonly held Family Law Myths, shedding some light on what is fact and how these situations can be addressed with the correct legal advice, and hopefully deliver the best outcome.
